Why voters should choose you

As a strong academic leader and child health advocate with a unique combination of skills and expertise in pediatric emergency medicine, diversity and health equity, I am well-prepared to support the AAP in the execution of its strategic plan and advancement of the Equity Agenda workplan 2.0. I am experienced in collaborating with individuals and across teams—nationally and locally—to address the many challenges facing children and our community of pediatricians while advancing opportunities for them to thrive. I relish the opportunity to use my skills and expertise in helping lead the AAP through this critical time.
